Our Philosophy of Curriculum:

Our curriculum is inspired by Reggio Emilia, Waldorf, and BC Early Learning Frame Work. Our curriculum is play and project-based that will promote collaborations in amongst the children and the classrooms. Educators will promote *Well-being and sense of belonging, exploration and creativity, and languages and literacies, social responsibility, and diversity*. We recognize that children have a *hundred language* following Reggio Emilia philosophy, hence they will be encouraged to explore and venture the world with their own creativity and expressions guided by educators. The environment that will encourage, love, warmth, gratitude, reverence, wonder joy, humor, happiness, and free is a key determinant for children's success and joy in their learning. The centre will strive to provide all such elements of philosophies for children.
